

Take the Roland 3D Scanner Challenge!

Seeing is believing so come out and see the award winning Roland 3D scanners at your local authorized Roland ASD reseller. Join us for a free demonstration scan from the Roland LPX-600 3D laser scanner and see what 3D scanning can do for you!

Roland is the industry leader in high quality, affordable desktop 3D scanning solutions and we want to prove it. Contact us to schedule a demonstration of the revolutionary LPX-600 3D laser scanner. With a 16" tall x 10" dia work envelope and a resolution of .008" the Roland LPX-600 delivers where others fall short. The LPX-600 includes EZ-Studio software to deliver true one touch scanning for high quality, consistent results from any operator. EZ-Studio automatically processes scan data and exports .stl files for use in downstream applications. SolidWorks users can take advantage of the new ScanTo3D tools in SolidWorks Premium to open data directly from Roland 3D scanners.

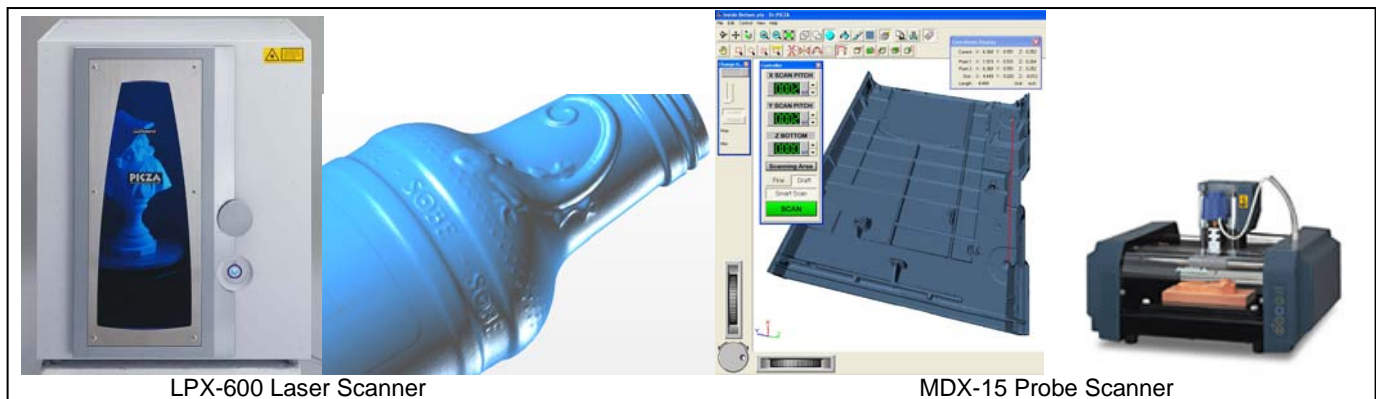

There has been a lot of buzz in the market this year around 3D laser scanners but after seeing the poor results from low cost products purchased over the internet people are looking for a better solution. If you bought a scanner over the web and were disappointed by the results take advantage of the money back guarantee and invest in a Roland 3D scanning solution.

Take advantage of special savings and lease offers this month on Roland 3D laser scanners.

Roland has been designing, building and distributing scanning solutions since 2001 and during that time has consistently set the benchmark for desktop 3D scanning. We offer probe scanning solutions starting at \$2,995 and our LPX-600 3D laser scanner with EZ Studio software sets the standard for scan quality and ease of use for less than \$12K.

Roland 3D Scan Milestones:

- ✓ 2001 Released LPX-250 desktop 3D laser scanner.
- ✓ 2002 Released MDX-15/20 SRP mill and touch probe scanner in one desktop solution.
- ✓ 2004 Release LPX-1200 3D laser scanner with unprecedented .004" resolution in a desktop scanner.
- ✓ 2005 Released LPX-600 3D laser scanner with EZ-Studio software. The 1st one-touch hardware/software 3D solution.

Come take the Roland 3D Scanner Challenge and see why Roland leads the way in high quality desktop 3D scanning solutions. Contact your local authorized Roland 3D Reseller today:
